

**ALLSAFE TECHNOLOGIES INTRODUCES .....**

# *Tri-R-Card: Reduce, Reuse, Recycle*

**100% Recycled PVC White Cards**

## **Product Information:**

The Tri-R-Cards are White Cards and are available in multiple sizes, multiple thicknesses and are shrink wrapped in packs of 100, with 500 packed to a box. These cards are just like our standard superior quality PVC cards and can be used in the same applications as the more traditional petroleum-based cards.

The Tri-R-Cards provide the durability and quality of traditional petroleum-based (PVC) cards, without relying on oil, one of the Earth's dwindling natural resources. These cards are made of recycled PVC.

The Tri-R-Cards are manufactured with the same high quality printing and personalization processes used in our traditional PVC cards.

## **FEATURES:**

- Litho – Four color process plus screen printing for metallics and pearlescents
- Video grade for dye sublimation printing
- .030” as well as other thicknesses – meet ISO standards
- All Allsafe Technologies available options are compatible with the Tri-R-Card
- Made from Boltaron SurCycle™ material

Call Allsafe today for special pricing. You will be helping the environment.
